

Insurance M&A, Business Transfers, and Restructuring

We have lawyers in all major jurisdictions in Europe, the U.S., Latin America, and Asia who work with insurance and reinsurance clients in the life and nonlife sectors. Our lawyers have substantial experience on complex and sophisticated domestic and cross-border mergers and acquisitions, restructuring transactions, and business transfers both within groups and negotiated with third parties.

In the highly regulated insurance industry, we are at the forefront of developing and implementing innovative structures for a wide variety of insurance and reinsurance transactions. We make sure the deal meets your commercial needs and satisfies the demands of insurance regulators.
