

Federal Funding and Appropriations

The federal government provides millions of dollars through grants and contracts for cutting-edge basic and applied research projects, as well as infrastructure projects.

We understand the federal budget and appropriations process, and we have a track record of assisting clients achieve their federal funding goals. Our team's success includes securing millions of dollars in funding for a range of clients.

We know how to work the appropriations process to get the best policy results. The key is our relationships with the House and Senate Appropriations and Budget Committees, as well as key executive branch agencies, such as the Office of Management and Budget and the White House.
