

Alex Harrison

Partner

London

Biography

Alex Harrison is an energy partner at Hogan Lovells. He advises clients on power generation, greenfield and brownfield project development, project and structured financing, electricity regulation, electricity and emissions trading, and acquisitions and disposals across the renewables, low carbon and thermal power sectors.

He has worked on coal, gas, LNG to power, carbon capture and storage (CCS), nuclear, wind, solar, biomass, hydro and energy storage transactions. Alex also advises clients in relation to energy transition, aggregation and digitalization issues; on electric vehicle (EV) charging and the electrification of transport and heat; and on the development, financing and regulation of grid network infrastructure assets.

Representative experience

Advising Alstom on the €12.4bn sale of power and grid businesses to General Electric and related joint ventures in grid, renewable power and nuclear sectors.

Advising a multinational engineering and construction firm on the disposal of its 50% investment in the Seagreen offshore wind farm in Scotland.

Advising lenders on a HoldCo financing in relation to First Hydro Company, which runs Dinorwing and
